Description

OVERVIEW

With its powerful 25hp, high-performance diesel engine, the only compact quality of the 4025H is its price. Its frame is the biggest in this class and with more ground clearance, it can handle chores usually reserved for much larger tractors. The 4025H also sports a very high lift capacity for a 25hp diesel, making it the perfect companion for a whole range of three-point hitch implements and demanding front-loader projects. The three-range hydro-static transmission gives you more range of performance and the all-steel hood, fender and frame construction are all hallmarks of the legendary Bad Boy manufacturing legacy.
