Description

OVERVIEW

The 1025H Sub-Compact Bad Boy Tractor is small enough to go where bigger tractors can't, and powerful enough to get the job done. At under 4 feet wide, this sub-compact tractor can squeeze into barn stalls and through gates to get where you need to work. Featuring 25 horsepower and over 600 pounds of full lifting capacity, along with our easy to drive automatic hydro-static transmission and four wheel drive you're ready to tackle any job for the small land owner. It's quick and easy to attach a wide variety of implement, like our front loader bucket or backhoe, thanks to the standard skid steer style front end and Category 1 three-point hitch.
